

>_ THE DEPLOYMENT MASTERCLASS

[PARTNER BRIEF] · masterclass.dreammachine.systems

Reading an architecture manual is not the same as writing code. The Dream Machine book provides the framework; migrating a live system while legacy scripts fight the update needs a structured environment. The Deployment Masterclass is that environment: an interactive, browser-based deployment pipeline for the human operating system. Not a video course to watch, a diagnostic to run.

\$ ls ./pipeline

[PRE] PRE-FLIGHT · system initialization & security handshake
[MOD 1] INIT · The Legacy Bug
[MOD 2] MAP · Multi-Agent Architecture
[MOD 3] PATCH · Constructed Emotions
[MOD 4] EXECUTE · Bottom-Up Consensus
[MOD 5] DEPLOY · Process Synchronization
[SYS_EXIT] COMPILE · two PDFs, local wipe

\$ cat ./architecture

Carbon Logs. Raw video briefings from the System Architect; hardware first, theory second.
Man Pages. Theory as scannable terminal documentation.
Cohort Execution. Migrate alongside a mesh of fellow Sudo Admins.
1 % Iterations. Push functional code daily; drop the Gantt Chart Fallacy.

[PDF] OUTPUT 1

Bare-Metal Runbook

A personal incident-response manual.
Private to the participant; never sent to a manager or HR.

[PDF] OUTPUT 2

Execution Certificate

An HR-compliant audit log that verifies the training hours. Nothing else.

[ZERO-KNOWLEDGE]

Compiled in the browser

Answers stay on the participant's device.
The server only ever sees a license key and three states: PENDING, STARTED, COMPLETED.

\$ cat ./seat_tiers // EUR, excl. VAT where applicable · one license key per seat

PERSONAL NODE	1 seat	EUR 128 · private use, one individual
BUSINESS NODE	1 seat	EUR 256 · commercial use, company invoice
TEAM CLUSTER	10 seats	EUR 2 048
ENTERPRISE DEPLOYMENT	25 seats	EUR 4 096
DIVISION ROLLOUT	50 seats	EUR 6 144
GLOBAL ARCHITECTURE	100 seats	EUR 10 240

Business tiers include the /b2b console for HR: seat status per key, CSV export. Free evaluation: guest token or partner's trial link opens PRE-FLIGHT and Module 1 without purchase, nothing to type.
